

SALISBURY AWAKENED.

DANGERS TO ENGLAND'S AFRICAN POSSESSIONS.

Negotiations Recognizing Important Concessions to Germany Suddenly Brought to a Close.

A Vigorous Protest From Chancellor von Caprivi—The Matter Probably at a Stand.

Emperor William Celebrating the Queen's Birthday With Marked Effusiveness—A Turkish "Jack the Kisser" and Companions Sentenced—Foreign Gleanings.

WEATHER BULLETIN.
SIGNAL OFFICE, WICHITA, Kan., May 24.—The highest temperature was 75°, the lowest up to 5 p. m. 57°, and the mean 66°, with a trace of rainfall in the morning and a trace at 6:50 p. m.; slightly cooler, partly cloudy weather and light southwest to brisk north winds.

Last year on May 24, the highest temperature was 67°, the lowest 59°, and the mean 62°.

FRED L. JOHNSON, Observer.
WAR DEPARTMENT, WASHINGTON, D. C., May 24, 8 p. m.—Forecast until 8 p. m. Sunday:

For Missouri—Fair weather, preceded by rain in extreme southeast portion, stationary temperature in western, cooler in eastern portion, westerly wind, fair Monday.
For Kansas—Fair weather, northerly winds, becoming variable, slightly warmer by Monday morning.

NEGOTIATIONS CLOSED.

Salisbury Realizes the Enactments of Germany.

(Copyright 1890 by the New York Associated Press.)

BERLIN, May 24.—The negotiations with England concerning territorial rights in the Congo basin have almost reached the point of an exchange of a protocol concerning to Germany a sphere of influence extending from the east coast to the Congo river, and the Lord Salisbury, the British prime minister, sent his envoy, Sir Percy Anderson, to the German capital to discuss the matter. The British ambassador at Berlin, Lord Salisbury, has just received from the German government a communication which is a complete repudiation of the German position. The British ambassador at Berlin, Lord Salisbury, has just received from the German government a communication which is a complete repudiation of the German position.

Whatever is Lord Salisbury's motive, it has evoked an energetic protest from Chancellor von Caprivi which the emperor either inspired or endorsed. Only strong state, combined with family reasons, determine the emperor to persist in his cordial relations with the English government. The North German Gazette, whose director recently had several interviews with Chancellor von Caprivi, obtained a semi-official communication advocating a continuance of the English occupation of the Congo basin to the prosperity of that country. The article obviously pointed that the German government was ready to support a permanent occupation of Egypt by the British.

The emperor, as if desiring to mark the strength of the entente with England, is celebrating the queen's birthday with a special ceremony. Sir Edward Malet and the whole British embassy banqueted tonight at the royal palace. The emperor toiled the queen at the head of a great family, the ruler of a friendly nation and the commander of the first German dragons. In conclusion he said to his guests: "God preserve the queen and her family for many years to come." The British ambassador responded and offered a toast in honor of the emperor, who has never before received the health of Chancellor von Caprivi, calling him his trusted minister and valuable servant of the country. The English flag is displayed on every building in Berlin. It is impossible that this effusive display of a desire to cultivate the friendship of England will induce Lord Salisbury to concede the demands of Germany. England should be thrown in the balance. General von Caprivi will not abate his claims and the issue will be an indefinite suspension of negotiations until the emperor's decision is reached. Germany in Africa not being worth a European war.

The Reichstag committee on the army and labor provisions will meet next week before the plenary sitting of the house. The progress of the army bill. Justifies the calculation that it will be passed by a vote of 250 in favor of 122 against. Despite the government's admission that the present demand is a mere installment, Herr Richter, in an article in the Freisinnige, commenting on the bill, made a statement to the committee, says they show that in the near prospective the German peace effort will be 60,000,000 marks to execute the conscription of 1891. The socialists, a section of the Freisinnige party and a section of the clerics, will win the conservative vote. The socialists have three members, Herr Reibel, Dietz and Grönlund on the labor committee. They are sanguine that they will get the Congo territory to England by constant workmen's syndicates and labor bureau under a minister of labor.

THE RIVALRY FOR AFRICA.
LONDON, May 24.—Sir Francis de Winton, Sir John Winton and Mr. C. G. Smith and Williams will take their departure from London for southeast Africa tonight in the interest of the British East African company, and it is expected that active results will follow their arrival there. It is stated that exceptional powers have been granted by the government to Sir Francis, comprising authority to take any action that may seem to him best calculated to conserve to the interests of England in Africa and at the same time extend her sphere of influence. It is an open secret that this step has been taken in deference to the recommendations and warnings of Mr. Stanley, who has persistently contended since his arrival here that Germany's activity was rapidly drawing her influence in Africa that England was losing by her apathy.

The German government, through its representatives in the anti-slavery conference in Brussels, is exerting a powerful influence in favor of the abolition of free trade in the Congo state. It is understood that unless the powers consent to the imposition of duties upon imports, King Leopold will be compelled to cede the Congo territory to England. The chief opponent of the opposition of import taxation in the Congo state is, singularly enough, the highly protected United States government, which is contesting the competency of the conference to impose the proposed taxation. It is announced in Berlin that Major Wiseman will arrive in that city about the end of June. Rumor alleges that his visit is at the instance of the government and with a view of obtaining the major's counsel in the organization of an African campaign on an extended scale. This report is supported by the recruiting operations of Lieutenant Governor Gravesmuth.

A TURKISH IDEA OF JUSTICE.

CONSTANTINOPLE, May 24.—The Turkish officer and the Russian student who were arrested by Russian sailors for assaulting the wife and daughter of the chief dragoman of the Russian embassy, in a garden in a garden at Burendere, were promptly put on trial, found guilty and sentenced to undergo imprisonment for six months. In addition to this punishment the sultan has issued a special edict ordering that, when the sentence expires the offenders shall be banished to Tripoli for life.

The ladies were walking in a garden, when they were seized by the officer and student, who forcibly kissed them. A party of sailors belonging to a Russian dispatch boat happened to be in the garden. They heard the ladies' cries for help and ran to their rescue. They captured four of the assailants, but the fifth succeeded in making his escape for the time being. The sailors conveyed their prisoners to the Russian embassy and delivered them into the keeping of M. de Nesselrode, the Russian ambassador. The day after the assault was committed the man who made his escape was arrested and locked up at the embassy. The affair has created much comment, and it is feared it will result in complications between the Russian and Turkish governments.

WORLD'S FAIR COMMISSIONERS.

TOPEKA, Kan., May 24.—Governor Humphrey has appointed a commission to select a fair commissioner for the state of Kansas. The commission will consist of Charles K. Holliday, Jr., Democrat of Topeka, and Ralph R. Price, Republican of Topeka, and J. F. Thompson, Democrat of Salina, and Frank Layton, Republican of Pittsburg.

JEFFERSON CITY, Mo., May 24.—Governor Francis thought appointed C. H. Jones, of St. Louis, and T. B. Bulfinch, of Kansas City, world's fair commissioners for Missouri. The alternates were not named by the governor.

WEEKLY BANK STATEMENT.

NEW YORK, May 24.—The weekly bank statement shows the following changes:

Reserve.....\$1,398,425
Loans.....\$849,900
Specie.....\$240,400
Legal tenders.....1,061,630
Deposits.....121,300
Circulation.....\$1,200,000
Increase.....\$1,000,000 in excess of the 25 per cent. rate.

SILVER CURRENCY.

An Air of Uncertainty Surrounds the Whole Matter.

NEW YORK, May 24.—Bradstreet's today says: While a general belief prevails that silver currency legislation of some kind will be passed at the present session of congress, the divergence of views expressed in that body on the subject, the variety of measures before it, and the slow progress which thus far has been made in the discussion by the senate, surrounds the whole matter with uncertainty. Interference by a representative of Bradstreet with the reading of New York bank officials, of which a selection of the most interesting follows, developed this fact. At the same time it can be said, taking the sentiment of the market, that the sentiment of the market is banking interests as indicative of those held in similar quarters throughout the country, that some increase of the currency through silver currency legislation is regarded as almost inevitable. Coupled with this it is also noticeable that alarmist views are not entertained, even though in some instances there are doubts as to the wisdom of the step or the ultimate effect which it may produce on the general financial condition of the country.

Hon. Charles S. Folger, ex-secretary of the United States treasury, and president of the New York Security and Trust company, said: In my report as secretary of the treasury I outlined to congress a method of dealing with the silver currency question which, in substance, was to limit the supply of silver currency furnished rapidly by the government to the demand for it by the people. This would have supplied the demand for additional silver currency without the necessity of market prices of silver considered as bullion, but without involving the danger of depreciation in the silver currency outstanding. I still consider this the best method of dealing with the subject. But at the moment it is difficult to predict either what will be done, or what form it will take. The use with which the government is now disposing of silver in the treasury in 1889 disappeared serves as a forcible argument in favor of future action in the same line. The national bank notes are now being rapidly reduced, and with this come a great increase in business, particularly in portions of the country where banking facilities are wanting. The government is now disposing of silver in the treasury in 1889 disappeared serves as a forcible argument in favor of future action in the same line. The national bank notes are now being rapidly reduced, and with this come a great increase in business, particularly in portions of the country where banking facilities are wanting.

AN EXTRA SESSION.

Governor Thayer Calls Together the Nebraska Legislature.

LINCOLN, Neb., May 24.—At 9 o'clock tonight Governor Thayer made public his proclamation convening the legislature on the 25th day of June for the purpose of passing a maximum rate law, repealing the law creating the state board of transportation, passing an Australian ballot bill, declaring for more currency, and the free coinage of silver. The governor says that the cost will not be more than \$2,000 a week, and that two weeks will be long enough to transact the business mapped out.

This announcement will cause intense excitement all over Nebraska. It is a totally unexpected move.

"Art is long and time is fleeting" and it is too bad to spend half of a short life frittered with neuralgia, when 25 cents spent for one bottle of Salvation Oil will cure it quickly.

George Cookin, the lion tamer, says he will have nothing to do with cross-eyed animals, nor use any other remedy for his croup and colds but Dr. Bull's Cough Syrup. He says it is the only reliable cough syrup to be had.

EARTHQUAKES IN JAPAN.

SAN FRANCISCO, Cal., May 24.—The earthquake which occurred this morning, fourteen days from Hong Kong and Yokohama. The Japan mail says about a hundred earthquakes were felt on Miyake Island, in the Izu group, from April 17 to 19. Many houses were destroyed and landslides occurred in various parts of the island.

A large number of persons have been arrested on suspicion for the murder of Rev. T. A. Targe, the Methodist missionary. Four are still in custody.

The Shanghai Mercury says that at a place called Soochow, near Ningpo, a miser named Chang White, delirious from fever, murdered his wife, son and daughter, mutilating their bodies, and afterwards committed suicide.

SEVERE EARTHQUAKE SHOCK.

BILLINGS, Mont., May 24.—At an early hour yesterday morning a very severe earthquake shock was felt all over this country. There were two separate vibrations. The inhabitants were considerably alarmed, but the disturbance was not repeated. Two brick houses were shaken down and considerable glass was shattered. A dance was in progress at the hotel and the severity of the shock floored several of the dancers and broke up the party in affright.

GREAT DAMAGE TO PROPERTY.

MALDEN, Ind., May 24.—A furious storm passed over this city yesterday. The Spent House was struck by lightning but was extinguished after the guests were all out. The damage to stock, buildings and crops in the county was great.

FATAL INJURIES BY LIGHTNING.

ALLIANCE, O., May 24.—During the prevalence of a severe rain and thunder storm at Alliance, O., yesterday afternoon, George Patterson together with his wife and two children while taking shelter under a large tree were struck by lightning. All sustained injuries which will in all probability prove fatal.

RAILROAD TO ALASKA.

OTTAWA, Ontario, May 24.—A project for a railway to Alaska is about to take definite shape. Application will be made to parliament at the first session for the passage of an act incorporating the Vancouver, Northern & Alaska Railway and Navigation company, with power to build a railway from Vancouver or some other point on Burrard Inlet on the banks of the Fraser river, by way of Seymour creek valley, Pemberton meadows, Chiloiten plains and the interior waters of the Fraser river, with branches in a northeasterly direction to the Skeena and Stikine rivers to the boundary of Alaska.

The native bear elephant bids fair to rival the great imported animal in size and weight, but it is pretty generally known that nothing rivals the great remedy, Dr. Bull's Cough Syrup.

"You shall die," the maiden cried. "He will be here tonight and my hands are chapped, and he will hold them." "Alas yourself, dear," her mamma replied, "we've a bottle of Salvation Oil."

TURF WINNERS.

NEW YORK, May 24.—The track was in magnificent shape and as the card was a good one some of the best contests of the meeting were looked for. The attendance was large. The winners were: Gloster, Hopeful, Kingman, Melite. The Latona derby was won by Melite, Litcher, Riley second, Avondale third.

WORLD'S FAIR COMMISSIONERS.

TOPEKA, Kan., May 24.—Governor Humphrey has appointed a commission to select a fair commissioner for the state of Kansas. The commission will consist of Charles K. Holliday, Jr., Democrat of Topeka, and Ralph R. Price, Republican of Topeka, and J. F. Thompson, Democrat of Salina, and Frank Layton, Republican of Pittsburg.

JEFFERSON CITY, Mo., May 24.—Governor Francis thought appointed C. H. Jones, of St. Louis, and T. B. Bulfinch, of Kansas City, world's fair commissioners for Missouri. The alternates were not named by the governor.

Circulation.....\$1,200,000
Increase.....\$1,000,000 in excess of the 25 per cent. rate.

EX-SECRETARY MCGARY VERY LOW.

ST. JOSEPH, Mo., May 24.—Ex-Secretary of War G. W. McGary is being seriously ill at the residence of his daughter, Mrs. E. B. Baker, in this city. Judge McGary's illness is of chronic duration, extending over a period of one year. He returned to this city from New York Monday the 19th. It is believed he had been taken by his family to obtain surgical relief.

Gentlemen who retain a youthful appearance preserve their hair with Ayer's Hair Vigor.

AFTER FIFTY ROUNDS.

SAN FRANCISCO, Cal., May 24.—Denny Kellher, of Boston, and Joe Ellingworth, of Los Angeles, middle-weights, fought fifty rounds at the Golden Gate Athletic club last night for a purse of \$1,000. Kellher was knocked out in the fifth round. Ellingworth did most of the leading throughout the fight, which on the part of Kellher was a waiting one.

Are you subject to nervous headaches? Brudersdorf will cure them.

YALE'S RACE BY A LENGTH.

NEW HAVEN, Conn., May 24.—The Yale-Atlanta boat race was rowed this afternoon and Yale won by one length, after an exciting contest. Yale's time was 39 minutes and 17 seconds and Atlanta 20 minutes and 42 seconds.

Wonderful cures by Ayer's Sarsaparilla in every part of the land. Write for names.

CITIZEN TRAIN'S TRAIN.
LA GRANDE, Ore., May 24.—The train bearing George Francis Train and party passed here at 6 o'clock last evening. It is expected they will reach Tacoma about noon today.

For economy and strength Hood's Sarsaparilla is unequalled—100 doses one dollar.

A South street pawnbroker was arrested Saturday when a poorly dressed man walked in, and putting his right hand to his mouth, drew forth a nice looking set of false teeth, which he laid on the counter.

"What can I get on 'em' said the man earnestly, nodding toward the teeth.

"Wait on your teeth!"
"Yes, on my teeth."
"I know that, you won't be able to eat."
"You do, eh?"
"Yes, perfectly. I can't get anything to eat. Consequently my teeth are of no use to me. The true thing keep them for ornamental purposes, but when I get angry I might as well use them as the fact being showing my teeth, but, alas! that doesn't pay, either."

As the shades of night began to fall the two, the pawnbroker and the man, were still negotiating, the man trying to argue the pawnbroker into selling the teeth. The pawnbroker persistently proving that both were really a drug in the market—Philadelphia North American.

Sources of Phthisis.
It would seem from Herman investigations that house sweepings constitute a fruitful source of phthisis. Carnot is reported as having experimented in the most thorough manner with the dust obtained from the walls and floors of various dwellings in which tubercular patients have been inoculating guinea pigs with it and carefully excluding all possibility of infection from other sources. Twenty-one guinea pigs were inoculated with the dust from the house sweepings and twenty patients were inoculated with the dust from the house sweepings. The results were likewise obtained with the dust from the house sweepings and patients were inoculated with the dust from the house sweepings.

New Sound Recording Apparatus.
In phonographs, graphophones and similar sound recorders, use is usually made of cylinders covered with wax or wax for recording, as the cylinders receive the impressions made by the scribers. A new sound recording apparatus operates on an entirely different principle. The cylinder is replaced by a flat surface, which is made to oscillate and move downwards at regular intervals by special machinery.

GENTLEMEN!

There seems to be an idea among some parties that a dry goods store is not the place for a gentleman to go to get his underwear or his socks, this is simply a great error.

The Arcade keeps a stock of the best grades of gents' furnishing goods, but unfortunately for some people we sell them too cheap.

Read these bargains for this week:

Gents' full balbrigan undershirts 38 cents, worth 50c.

Gents' jersey ribbed natural color 50 cents, worth 75c.

Gents' four-ply linen collars only 10c.

Gents' fast black hose only 25c, with 40.

Beautiful four-in-hand silk ties, would be cheap at 40c, but we offer them at a bargain, only 25c.

A good linen bosom shirt only 48c.

Graduating Dresses. The "Arcade" has just opened quite a large line of dress goods suitable for graduating purposes.

The new 3-story wrap only 1.75; come and see them.

Learentine Chollies. This new novelties of dress goods surpasses anything shown in the line this year; they are worth about 12c, but the "Arcade" leads at only 7c.

Real Scotch Ginghams down to 12c; how is this for the "Arcade."

Special sale this week on White Dress Goods at 12c.

From over the sea. We offer this week all our finest French chollies, newest styles and the finest grade known to the dry goods trade, only 50 cts; others are asking 60 cts and the "Arcade" leads at only 25 cents.

Our fast black house kills anything shown in the city at 40 cts, but the "Arcade" says only 25 cents.

Women Who Are Pious Fighters. The French find that it is withering with the anathema of Buddhism they must lay aside all vestiges of courtesy to the "waker sex." The anathema have taken the field to kill or be killed. When victorious they mutilate their victims. It was in retaliation for a lady of the sort that a French officer recently caused a half dozen of the black female warriors to be decapitated. The fight still goes on, and at last reports the Africans seemed to have the better of the contest.

Dr. Kuhnenan has found in sections of warts (verruca vulgaris) a bacillus which is always present in the prickle layer. It has distinctive qualities as regards its capacity for color, and is found both beneath and in the cells. Its form is that of exceedingly delicate, slender rods, the thickness bearing the proportion to the length of one to six. It is seldom found in the skin surrounding the wart, and is found most plentifully in the wart.
